

**Tour title: Breathtaking views of Rome by bike**

**Tour description:** Rome is famous for its hills and we will reach some of them in order to observe and admire the breathtaking views of the city centre. The experience will start next to Termini Train Station where we will take our bicycles. We will then ride, starting from the Coliseum, for around 15 km on a circular itinerary in the city centre stopping by the most scenographic spots; not only peaks but also insane views from the bridges and from the banks of the Tevere river. Bring a camera with you! During the stops we will have fun recognizing the several monuments visible from the different spots: the Altare della Patria for which Romans have given it a number of humorous and somewhat uncomplimentary nicknames, including “la torta nuziale” (“the wedding cake”), the Pantheon with its holed dome and the always-there San Peters’ dome, just to name a few. This experience is perfect in order to see the beauty of Rome from a different perspective!

**Tour inclusions:** English speaking locale guide for 3,5 hours, bike rental with helmet and bike lock

**Tour duration:** 3,5 hours approx.

**Pick up point:** close to Termini Train station

**Tour starting time:** 10:15 a.m. or 2:30 p.m.
