

Tour title: UCONVENTIONAL ROME AND MURALS TOUR BY BIKE

Tour description: From the centre to suburbs on the off-beaten path we will visit places connected by the giant murals. They are the leading thread of this itinerary which is much more than a murals' tour. Social aspects, history, architecture, anecdotes about Rome and a bit of culinary make the experience much more appealing and complete to understand some aspect of the Italian culture.

The tour will start from Trastevere and then leave the centre passing by Testaccio, Ostiense and Garbatella districts. We will visit a real example of urban requalification in Tor Marancia and at the end we will ride along the banks of the Tevere river.
